

One chair. Then a house.

A simple, three-step plan to grow Lumevina beyond the hours one person can work, and the website and app packages that power it.

The Collective Eight artists, one app, shared Glow Rewards.

+\$93k

Likely added profit per year, by year 2–3

\$12k

The website package, live in about 2–3 weeks

8 months

For it to pay for itself, from your chair alone

The problem

Your income stops when your hands stop.

\$220k

The most one person can earn in a year. Fully booked, never sick, before rent, product and taxes. More hours isn't a plan.

The plan

Three steps. Each one earns the next.

1

Grow your chair

Months 0–6

Membership, add-ons and filling empty hours. More from every hour you already work.

2

Pilot two artists

Months 6–12

Two licensed lash or brow artists book through Lumevina. We measure one thing: do their clients book you?

3

The Collective

Year 2–3

Six to eight artists, one space, one app, one rewards program. Only if the pilot worked.

How it works

One app. Everyone wins.

1

A client books a lash fill

in the Lumevina app.

2

The artist is paid directly.

They run their own business.

3

Lumevina keeps 12%.

Automatically, on every booking.

4

Glow points bring the client

to Evelyn for a facial.

Then the facial client books a lash fill, and the circle starts again.

Grow your chair. Fill every hour.

Launch	Glow Membership at \$159 a month, add-ons at booking, flash openings, and give \$25 / get \$25.
Measure	Members, average visit, and how many hours are booked.
Target	30 members, a \$150+ average visit, 90% of hours booked.
Result	About \$4.5k more revenue a month, from the same chair.

Pilot two artists. Prove it small.

- Recruit** Two licensed lash or brow artists who already have a following.
- Set up** Their own payouts, a 12% platform fee, shared Glow Rewards, attorney-approved terms.
- Measure** How many of their clients also book Evelyn.
- Decide** 15% or more by month 12 means go. Under that, keep the pilot: it still nets about \$2.8k a month.

The Collective. One house, one app.

What it's worth

Custom-built. Priced for one chair.

What this system would cost to have built elsewhere, and where the packages sit.

Payback

It pays for itself. From your chair alone.

13 mo

Low · membership grows slowly

8 mo

Likely · about 30 members, fuller hours

6 mo

High · membership fills fast

Packages

Two packages. One care plan.

Start with the website. Add the app when the artists arrive. Keep it all running with care.

Space and running costs –\$5,000–\$6,500	–\$5,500
Net to Lumevina \$1,100–\$8,140	\$4,100

Grow fast. Stay safe.

Licensed only.

Every artist holds a California license and works in a licensed space.

Their own business.

Artists set their prices and are paid directly, which keeps California's AB5 employee rules on our side. An attorney signs off first.

Pilot before lease.

No new space until two artists prove their clients also book Evelyn.

Clear roles.

Evelyn owns the brand and the standard of care. Ruben runs operations, the app and the numbers.
