

One chair. Then a house.

A simple, three-step plan to grow Lumevina beyond the hours one person can work.

The Collective Eight artists, one app, shared Glow Rewards.

The problem

Your income stops when your hands stop.

\$220k

The most one person can earn in a year. Fully booked, never sick, before rent, product and taxes. More hours isn't a plan.

The plan

Three steps. Each one earns the next.

1

Grow your chair

Months 0–6

Membership, add-ons and filling empty hours. More from every hour you already work.

2

Pilot two artists

Months 6–12

Two licensed lash or brow artists book through Lumevina. We measure one thing: do their clients book you?

3

The Collective

Year 2–3

Six to eight artists, one space, one app, one rewards program. Only if the pilot worked.

How it works

One app. Everyone wins.

1

A client books a lash fill

in the Lumevina app.

>

2

The artist is paid directly.

They run their own business.

>

3

Lumevina keeps 12%.

Automatically, on every booking.

>

4

Glow points bring the client

to Evelyn for a facial.

Then the facial client books a lash fill, and the circle starts again.

Grow your chair. Fill every hour.

Launch	Glow Membership at \$159 a month, add-ons at booking, flash openings, and give \$25 / get \$25.
Measure	Members, average visit, and how many hours are booked.
Target	30 members, a \$150+ average visit, 90% of hours booked.
Result	About \$4.5k more revenue a month, from the same chair.

Pilot two artists. Prove it small.

Recruit	Two licensed lash or brow artists who already have a following.
Set up	Their own payouts, a 12% platform fee, shared Glow Rewards, attorney-approved terms.
Measure	How many of their clients also book Evelyn.
Decide	15% or more by month 12 means go. Under that, keep the pilot: it still nets about \$2.8k a month.

The Collective. One house, one app.

Space	Sign a 6–8 suite lease only after the pilot passes.
Fill	One or two licensed artists a month, found through the pilot artists' networks.
App	Lumevina goes to the App Store with every artist bookable.
Target	Seven artists, about \$4.1k net a month: +\$93k a year with Step 1.

Grow fast. Stay safe.

Licensed only.

Every artist holds a California license and works in a licensed space.

Their own business.

Artists set their prices and are paid directly, which keeps California's AB5 employee rules on our side. An attorney signs off first.

Pilot before lease.

No new space until two artists prove their clients also book Evelyn.

Clear roles.

Evelyn owns the brand and the standard of care. Ruben runs operations, the app and the numbers.
