

AFTERCARE

Facial

Your skin after today's treatment

TODAY

- Skip makeup for the rest of the day if you can.
- Keep your hands off your face.
- Skip the gym, sauna, hot yoga and hot showers.

THE NEXT 48 HOURS

- Hold off on retinoids, acids and scrubs.
- Use a gentle cleanser, moisturizer and SPF 30+.
- Sleep on a fresh pillowcase tonight.

WHAT'S NORMAL

A little pinkness for a few hours, and a few small breakouts in the first week as your skin clears.

CALL ME IF

You notice swelling, blisters, a rash, or redness that gets worse after a day.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Acne Facial

Your skin after extractions

TODAY

- Don't touch, pick or squeeze. Your skin is already healing.
- Skip makeup for 12 hours, then use clean brushes.
- Avoid the gym, sauna and anything that makes you sweat.

THE NEXT 48 HOURS

- Pause retinoids, acids and benzoyl peroxide unless I've said otherwise.
- Use only the products I recommended.
- Fresh pillowcase, clean phone screen.

WHAT'S NORMAL

Small red marks where extractions were done, fading in 1 to 3 days.
A few new spots as deeper congestion comes up.

CALL ME IF

A spot turns hot, swollen or painful, or you see yellow crusting.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Chemical Peel

Your skin's first week

THE FIRST 48 HOURS

- Cleanse with cool water and a mild cleanser; moisturize often.
- No sweating, sauna, steam or hot showers.
- No makeup for 24 hours.

FOR 7 DAYS

- Don't pick, peel or scrub flaking skin. Let it shed on its own.
- No retinoids, acids, scrubs, waxing or other treatments.
- SPF 30+ every day, reapplied outdoors. Avoid direct sun.

WHAT'S NORMAL

Tightness and shine, then flaking from about day 2 or 3. Some people barely peel, and the peel still worked.

CALL ME IF

You notice blisters, oozing, crusting, intense burning or itching, or dark patches.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Dermaplaning

Your smooth, fresh skin

THE FIRST 24 HOURS

- Go easy on makeup until tomorrow.
- Avoid heat, heavy sweating and hot showers.
- Keep your hands off your face.

THE NEXT 3 DAYS

- No retinoids, acids, scrubs or peels.
- No waxing or threading on the area for a week.
- SPF 30+ daily. Fresh skin burns faster.

WHAT'S NORMAL

Smooth, slightly pink skin. Hair grows back the same, not thicker or darker, in about 3 to 4 weeks.

CALL ME IF

Bumps, irritation or a rash don't settle within 2 days.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Face Waxing

Brows, lip and chin

THE FIRST 24 HOURS

- No makeup or fragranced products on the area.
- Avoid heat, sun, tanning, saunas and steam.
- Keep your hands off the area.

THE NEXT 48 HOURS

- No exfoliants, retinoids or acids on the area.
- A cool compress calms any redness.

WHAT'S NORMAL

Redness and tiny bumps for a few hours.

BETWEEN VISITS

Skip the tweezers so hair grows evenly. Book again in 3 to 5 weeks.

CALL ME IF

Skin looks raw or weepy, or bumps last longer than 2 days.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Body Waxing

Including bikini and Brazilian

THE FIRST 48 HOURS

- Wear loose, breathable cotton.
- Skip hot tubs, saunas, pools, tanning and workouts.
- Bikini or Brazilian: skip intimacy for 24 hours.

FROM DAY 3

- Exfoliate gently 2 to 3 times a week to prevent ingrown hairs.
- Moisturize every day.

WHAT'S NORMAL

Redness and small bumps for a day or two.

BETWEEN VISITS

Don't shave. Book again in 4 to 6 weeks.

CALL ME IF

You notice painful bumps, pus, or a rash that spreads.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Lash Lift & Tint

Keeping your curl

THE FIRST 24 HOURS

- Keep lashes dry: no water, steam, sauna or swimming.
- No mascara, eye makeup or eye cream.
- Don't rub your eyes or sleep face-down.

AFTER THAT

- Brush your lashes every morning.
- Use an oil-free makeup remover to help the lift last.
- A lash conditioner keeps them healthy.

WHAT'S NORMAL

The lift lasts 6 to 8 weeks. The tint fades gently over 4 to 6 weeks.

CALL ME IF

Eyes turn red, swollen, watery or itchy. Rinse with cool water and see a doctor if it doesn't settle.

QUESTIONS _____ NEXT VISIT _____

AFTERCARE

Brow Lamination

Laminated and tinted brows

THE FIRST 24 HOURS

- Keep brows completely dry.
- No makeup, brow gel or skincare on the brows.
- Don't rub them, sweat heavily or sleep face-down.

AFTER THAT

- Brush brows into shape every morning.
- Nourish them nightly with a drop of brow oil.
- Keep retinoids and acids away from the brows.

WHAT'S NORMAL

Results last 6 to 8 weeks. Tint fades over 3 to 4 weeks.

CALL ME IF

Redness, itching, bumps or swelling don't settle within a day.
