

Start *here*

Thank you for your order. Here's what's in your download and how to make it yours.

WHAT'S INSIDE

Print sheets	All eight cards at 5 x 7 in, two to a page with crop marks, on US Letter or A4.
Phone cards	The same eight cards as tall images (1080 x 1920) to text or email after a visit, or post to Instagram stories.
Word file	Every card on its own 5 x 7 page, fully editable.
The cards	Facial · Acne Facial · Chemical Peel · Dermaplaning · Face Waxing · Body Waxing · Lash Lift & Tint · Brow Lamination

MAKE IT YOURS

1. Read each card and adjust the timings to the products and protocols you use.
2. Add your phone number or Instagram handle on the Questions line, or leave it to write in.
3. Print on matte cardstock (80 to 110 lb), then trim along the crop marks.
4. Save the phone cards to a favorites album so you can text the right one before the client reaches the car.

FONTS

The designs use **Cormorant Garamond** and **Jost**, free at fonts.google.com. Google Docs has both. Without them, Word swaps in a similar font and everything still works.

PRINTING

- Print at **Actual size** (100%), not "Fit to page."
- Use the US Letter or A4 version to match your paper.
- Matte cardstock, 80 to 110 lb cover, prints and writes on beautifully.

BEFORE YOU USE THEM

These are templates, not legal or medical advice. Rules for estheticians differ from state to state and country to country. Before you use them, check your licensing board's scope of practice and have a local attorney review the consent forms and policies.

YOUR LICENSE

Use these files in your own business, and print or share filled-in copies with your clients as often as you like. Please don't resell, share or give away the files themselves, edited or not. One purchase covers one business; message us for a multi-location license.

QUESTIONS

Message us on Etsy anytime. We reply within one business day and are happy to help you edit or print.

From our studio to yours

Designed by Evelyn Romero, licensed esthetician and owner of Lumevina Aesthetics in Woodland Hills, California, from the forms and tools she uses in her own studio. Some wording was drafted with the help of AI writing tools, then checked and edited by hand.
