Thank you for your order. Here's what's in your download and how to make it yours.

WHAT'S INSIDE

Fillable PDF	Skin Analysis with face map, Treatment Record and Progress Map, on US Letter and A4. Type on an iPad or print and write by hand.
Word file	The same three pages, editable.
Face maps	Mark what you see with the symbols in the key, or with an Apple Pencil in Markup.

MAKE IT YOURS

1. Add your studio name at the top of each page (fillable PDF or Word).
2. Fill in the Skin Analysis at the first visit, and again every few months.
3. Log every visit on the Treatment Record, including products, strengths and how the skin responded.
4. Use the Progress Map at the start and end of a series to show clients how far they've come.

FONTS

The designs use **Cormorant Garamond** and **Jost**, free at fonts.google.com. Google Docs has both. Without them, Word swaps in a similar font and everything still works.

PRINTING

- Print at **Actual size** (100%), not "Fit to page."
- Use the US Letter or A4 version to match your paper.
- Plain 24 lb paper is fine; 32 lb feels more premium.

YOUR LICENSE

Use these files in your own business, and print or share filled-in copies with your clients as often as you like. Please don't resell, share or give away the files themselves, edited or not. One purchase covers one business; message us for a multi-location license.

ON AN IPAD OR PHONE

1. Open the fillable PDF in **Files**, **Adobe Acrobat Reader** or any PDF app.
2. Tap a line or box to type or tick it. Use **Markup** or **Fill & Sign** to sign.
3. Save a copy to the client's record, or email or AirDrop it to yourself.
