Thank you for your order. Here's what's in your download and how to make it yours.

WHAT'S INSIDE

Spreadsheet

The calculator as an Excel file. Opens in Excel, Google Sheets (File, Import) and Numbers.

Four tabs

Start Here · Calculator (your costs, tiers and the answers) · Your First Year (a 12-month growth plan) · Price Test (profit at different prices and member counts)

MAKE IT YOURS

1. Open the Calculator tab and replace the blue example numbers with yours. Yellow cells matter most.
2. Try a few prices and perks until what you keep per member feels right and the member still saves.
3. Check how many members cover your costs, and how many hours of your month they'd fill.
4. Use Your First Year to set a sign-up goal, and Price Test before you announce prices.

GOOGLE SHEETS

In Google Drive, choose **New, File upload**, pick the file, then **Open with Google Sheets**. Everything calculates the same way.
