Thank you for your order. Here's what's in your download and how to make it yours.

WHAT'S INSIDE

Spreadsheet

The tracker as an Excel file. Opens in Excel, Google Sheets (File, Import) and Numbers.

Seven tabs

Start Here · Settings · Income · Expenses · Products · Month by Month · The Year at a Glance

MAKE IT YOURS

1. Set the year, your card fee and your tax set-aside on the Settings tab.
2. Log each sale on Income and each cost on Expenses. Five minutes at the end of the day is plenty.
3. Add your retail products once, and update the stock when you count the shelf.
4. On the first of each month, look at Month by Month: what grew, what cost more, and what you kept.

GOOGLE SHEETS

In Google Drive, choose **New, File upload**, pick the file, then **Open with Google Sheets**. The drop-downs and totals work the same way.

AT TAX TIME

Share the workbook, or the Month by Month and Expenses tabs, with your tax preparer. The categories line up with the way most preparers group business costs.
