Thank you for your order. Here's what's in your download and how to make it yours.

## WHAT'S INSIDE

|                      |                                                                                                                                              |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Scripts guide</b> | Five pages of scripts: in the room, the membership, texts that fill your book, protecting your time, and DMs and questions. About 45 in all. |
| <b>Word file</b>     | The same scripts, editable, so you can change the wording, prices and policies to yours.                                                     |

## MAKE IT YOURS

1. Replace everything in [brackets] with your own prices, policies, links and service names.
2. Paste the texts into your booking app's automatic messages (confirmation, reminder, follow-up).
3. Save the ones you send by hand as text replacements on your phone (Settings, General, Keyboard).
4. Practice the in-room scripts out loud until they sound like you.

## FONTS

The designs use **Cormorant Garamond** and **Jost**, free at [fonts.google.com](https://fonts.google.com). Google Docs has both. Without them, Word swaps in a similar font and everything still works.

## PRINTING

- Print at **Actual size** (100%), not "Fit to page."
- Use the US Letter or A4 version to match your paper.
- Plain 24 lb paper is fine; 32 lb feels more premium.

## YOUR LICENSE

Use these files in your own business, and print or share filled-in copies with your clients as often as you like. Please don't resell, share or give away the files themselves, edited or not. One purchase covers one business; message us for a multi-location license.

## QUESTIONS

Message us on Etsy anytime. We reply within one business day and are happy to help you edit or print.

### From our studio to yours

Designed by Evelyn Romero, licensed esthetician and owner of Lumevina Aesthetics in Woodland Hills, California, from the forms and tools she uses in her own studio. Some wording was drafted with the help of AI writing tools, then checked and edited by hand.
