

# My Skin *Journal*

Thirty days to know your skin: what you use, how it responds, and what actually works. Bring it to your next facial.

## HOW TO USE IT

1. Write down your routine and the products you own. You may find you need fewer than you think.
2. Add one new product at a time, and patch test it first.
3. Fill in one line of the diary each night. It takes thirty seconds.
4. Once a week, take a photo and do the check-in.

## IN THIRTY DAYS I WANT TO

---

---

---

---

### Three rules that fix most skin

Wear sunscreen every morning, even indoors by a window. Change one thing at a time. Give anything new four to six weeks before you judge it.

# My *Routine*

Apply from thinnest to thickest. Sunscreen is always last in the morning.

## MORNING

| STEP            | PRODUCT | NOTES |
|-----------------|---------|-------|
| Cleanse         |         |       |
| Tone or essence |         |       |
| Serum           |         |       |
| Eye cream       |         |       |
| Moisturize      |         |       |
| Sunscreen       |         |       |

## EVENING

| STEP          | PRODUCT | NOTES |
|---------------|---------|-------|
| Remove makeup |         |       |
| Cleanse       |         |       |
| Treatment     |         |       |
| Serum         |         |       |
| Eye cream     |         |       |
| Moisturize    |         |       |

## WEEKLY

| WHAT           | PRODUCT | WHICH DAYS |
|----------------|---------|------------|
| Exfoliate      |         |            |
| Mask           |         |            |
| Something else |         |            |

Using a retinoid or an exfoliating acid? Keep them on different nights, and use them in the evening only.

Everything on your shelf. Most products last 6 to 12 months once opened: look for the little open-jar symbol with a number, like 12M.

# Trying Something *New*

Patch test first, then add it slowly. If your skin reacts, you'll know exactly why.

## HOW TO PATCH TEST

- 1. Dab a little behind your ear or along your jaw, once a day, for three days.
- 2. Look for redness, itching, bumps or burning. Any of those means stop.
- 3. No reaction? Start using it on your face, two or three times a week at first.

## PATCH TESTS

| PRODUCT | STARTED | WHERE | DAY 1 | DAY 2 | DAY 3 | RESULT |
|---------|---------|-------|-------|-------|-------|--------|
|         |         |       |       |       |       |        |
|         |         |       |       |       |       |        |
|         |         |       |       |       |       |        |
|         |         |       |       |       |       |        |
|         |         |       |       |       |       |        |
|         |         |       |       |       |       |        |
|         |         |       |       |       |       |        |

## ADDING IT IN SLOWLY

| PRODUCT | WEEK 1 | WEEK 2 | WEEK 3          | WEEK 4 | HOW IT'S GOING |
|---------|--------|--------|-----------------|--------|----------------|
|         | 2x     | 3x     | Every other day | Daily  |                |
|         |        |        |                 |        |                |
|         |        |        |                 |        |                |
|         |        |        |                 |        |                |

Retinoids and strong acids often cause a little dryness or a few breakouts in the first month. Stop and ask your esthetician if you see burning, peeling that doesn't settle, or a rash.

THE BIGGEST THING I LEARNED ABOUT MY SKIN \_\_\_\_\_

## Keep going

Skin renews itself roughly every four weeks, and slows down with age. The best results come from the next thirty days, and the thirty after that.
